Mike,

This e-mail is to confirm our conversation on December 18, 2013 about the remediation plan for the above referenced site. I have attached the materials that we used in our discussion. As discussed, Oxy will be allowed to close this site with no further action. As you recall and review the attached e-mail chain discussion between you, Chris Jones, and Jim Amos and the attached lab data for the resampling of SP2 at 6 inches, the contaminant levels are reduced to below guidelines allowing for no further action. Oxy appreciates your working with them to get this site to closure.

If you would please e-mail your concurrence with this remediation plan, it would be greatly appreciated.

Thanks, Cliff
