Reference: OXY USA * Lost Tank 35 St 004 * 30-015-31275 * M-35-21s-31e * Eddy County, New Mexico
NMOCD Reference number: 2RP-1609 * Date of release: 5/30/2012

Cliff,

Your proposal for remediation of the above referenced release is approved with the following conditions:

- Notify OCD prior to commencement of remedial activities.
- Further delineation is required in the area identified as SP-3.
- Notify OCD prior to installation of liner.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Mike,

This e-mail is to confirm our conversation on December 18, 2013 about the remediation plan for the above referenced site. I have attached the materials that we used in our discussion. As discussed, Oxy will excavate the entire spill area to a depth of 4 feet with a liner put in place. The liner will be under the line that ruptured. The area will then be backfilled with clean soil.

If you would please e-mail your concurrence with this remediation plan, it would be greatly appreciated.

Thanks, Cliff
