Describe Cause of Problem and Remedial Action Taken.\* 1/2" hole in 4" brine water disposal line. Approximately 2200 yards of contaminated soil was removed and hauled to an OCD approved landfill (Sundance services)

Describe Area Affected and Cleanup Action Taken.\* The area affected has been excavated and soil contamination disposed of at an approved OCD landfill (Sundance Services). A 20ml liner was installed in the bottom of the excavation after approval on July 18, 2014 from the OCD Hobbs. The excavation was backfilled with clean soil and leveled.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
