NATURE OF RELEASE											
Type of Release Crude Oil						Volume of Release Volume Release 2 B/O			Recovered		
Source of Release Well Head						Date and Hour of OccurrenceDate and Hour of Discovery2/11/2013; PM2/11/2013; RM					
Was Immediate Notice Given?							If YES, To Whom?				
By Whom? N/A						Date and Hour N/A					
Was a Watercourse Reached?						If YES, Volume Impacting the Watercourse. N/A					
If a Watercourse was Impacted, Describe Fully.*											
	Describe Cause of Problem and Remedial Action Taken.* Hot oiled well, trash in back psi valve, packing blew out. Shut well in and called vac truck to pick up fluid off ground.										
Describe Area Affected and Cleanup Action Taken.* An approximate area of 75' X 30'. Packing was replaced and standing oil around well head was picked up. Impacted material was removed and hauled to a NMOCD approved site. Vertical and horizontal delineation samples will be taken and analysis ran for TPH & BTEX. If initial analytical results for TPH & BTEX are under RRAL's a Final Report, C-141 will be submitted to the OCD requesting closure. If the analytical results are above the RRAL's a work plan will be submitted. The surrounding area that was misted was sprayed with Micro Blaze. Depth to Ground Water: >100' (approximately 148', T16S-R33E, per NMOSE), Wellhead Protection Area: No, Distance to Surface Water Body: >1000', SITE RANKING IS 0. Based on the release being minor per NMOSE "Guidelines for Remediation of Leaks, Spills, and Releases" and Site Ranking being a '0', and the misted area being sprayed with Micro Blaze, Yates Petroleum Corporation requests closure.											
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
