Attention: Ms. Jami Bailey  
Division Director

Re: Application for Unorthodox Well Location  
Wrangler State Well No. 3  
API No. (30-015-42581)  
280' FSL & 2310' FEL (Unit O)  
Section 28, T-17 South, R-28 East, NMPM,  
Eddy County, New Mexico

Dear Ms. Bailey:

Pursuant to Division Rule 19.15.15.13, Apache Corporation ("Apache") respectfully requests administrative approval of an unorthodox oil well location for its proposed Wrangler State No. 3. This well will be drilled as a development oil well in the Artesia Glorieta-Yeso Pool (96830).

The proposed Wrangler State No. 3 will be dedicated to an existing standard 40-acre oil spacing and proration unit in the Artesia Glorieta-Yeso Pool comprising the SW/4 SE/4 of Section 28. This unit is currently dedicated to Apache's: i) proposed Wrangler State No. 2 (API No. 30-015-42580) located at a standard well location 990 feet from the South line and 2310 feet from the East line; and ii) proposed Wrangler State No. 4 (API No. 30-015-42582) located at an unorthodox well location 250 feet from the South line and 1650 feet from the East line.

The Artesia Glorieta-Yeso Pool is currently governed by Division Rule 19.19.15.9 which requires standard 40-acre oil spacing and proration units with wells to be located no closer than 330 feet to the outer boundary of the spacing unit.

The attached vicinity map shows that the proposed unorthodox well location is necessary in order to avoid existing pipelines.

The affected offset tracts are the NW/4 NE/4 and NE/4 NW/4 of Section 33, Township 17 South, Range 28 East, NMPM (See **Attached Plat**). These affected offset tracts are currently operated by Apache in the Artesia Glorieta-Yeso Pool. Please note that Apache owns 100% of the working interest in both affected offset tracts.

Consequently, notice of this application is not required and has not been provided to any party.

Attached is a Form C-102 showing the proposed well, spacing unit, other proposed wells in the spacing unit, and the affected offset acreage. Also attached is a vicinity map.

In summary, approval of the application will provide Apache Corporation the opportunity to recover additional oil and gas reserves from the Artesia Glorieta-Yeso Pool underlying the SW/4 SE/4 of Section 28 that may otherwise not be recovered by the proposed producing wells, thereby preventing waste, and will not violate correlative rights.

If you should have any questions, please call me at (505) 690-9453.

Sincerely,

David Catanach, Agent
