RE: Unorthodox Location Request

Dear Sir,

Whiting Oil & Gas respectfully requests an administrative unorthodox location order be granted for the the proposed well location listed below.

Whiting Oil & Gas
WHITE-COOK 1828-5 WELL # 1
Section 5, Unit Letter G, T18N, R28E
2300' FNL & 1700' FEL
Harding County, New Mexico

Attached is a land map, location of seismic line map, and the C-102 for the well listed above. Whiting would like to drill the White-Cook 1828-5 # 1 at the current location in order to take advantage of the existing seismic line shown on the attached map. We believe that spotting this well closer to the line will reduce risk by allowing us to avoid potential drilling hazards and improve our chances of hitting an advantageous reservoir position. Moving the location further north to a standard location would increase the risk for both.

The proposed well location is closer to the spacing units inside border. Whiting has leased all other affected spacing units within the section. Therefore there is no notification requirements. Please reference attached map.

If you require additional data please let me know via email kay.maddox@whiting.com or by phone 432.686.1609. Thank you for your time and attention.

Sincerely,

Kay Maddox
