If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

**RECEIVED**

**Due to low temperatures, hydrates formed on the pipeline, and a pipeline blowdown occurred during defrosting. Pipeline liquids were collected and temporarily stored in frac tanks until removed from the location via tanker trucks. No liquid was released to the ground.**

Describe Area Affected and Cleanup Action Taken.\*

**No liquid spills occurred requiring any cleanup actions.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**RE: Form C-141 Report for Enterprise Field Services LLC  
Releases on Carlsbad Area Gathering Lines**

Dear Mr. Bratcher:

Enclosed, please find the required C-141 Form for the unplanned blowdown on our Trunk A Line in Eddy County on December 15, 2014. The pipeline was blown down during response to a line freeze. This report is sent pursuant to NMAC 19.15.29 requirements for minor releases.

If you have any questions or need additional information, please contact Dina Babinski, our area Environmental Supervisor by phone at 210-528-3824 or via email at [djbabinski@eprod.com](mailto:djbabinski@eprod.com) or me at 713-318-6684.

Regards,

Jon E. Fields  
Director, Field Environmental
