State Of New Mexico Oil Conservation Division 1220 South St Francis Drive Santa Fe, New Mexico

RE: Unorthodox Location Request

Dear Sir,

Whiting Oil & Gas respectfully requests an administrative unorthodox location order be granted for the the well listed below.

Whiting Oil & Gas LEWIS 1928 02 WELL # 1 30-021-20587 Section 2, Unit Letter J, T19N, R28E 2110' FSL & 1650' FEL Harding County, New Mexico

Attached is a land map, and the C-102 for the well listed above. Whiting drilled the LEWIS 1928 02 Well # 1 at the current location because based on the drilling permit issued by the State of New Mexico on 10/28/2013 for this well in the Bravo Dome Carbon Dioxide Gas 640 pool, the well was staked/permitted at a standard location for a 640 acre proration unit. As of 11/2014 it was determined that that the correct pool for this well is the Wildcat: Tubb CO2 Gas pool which has a 160 acre proration unit. Based on this change the well is now at an unorthodox location.

The proposed well location is closer to the spacing units inside border. Whiting has leased all other affected spacing units within the section. Therefore there is no notification requirements. Please reference attached map.

If you require additional data please let me know via email kay.maddox@whiting.com or by phone 432,686.1609. Thank you for your time and attention.

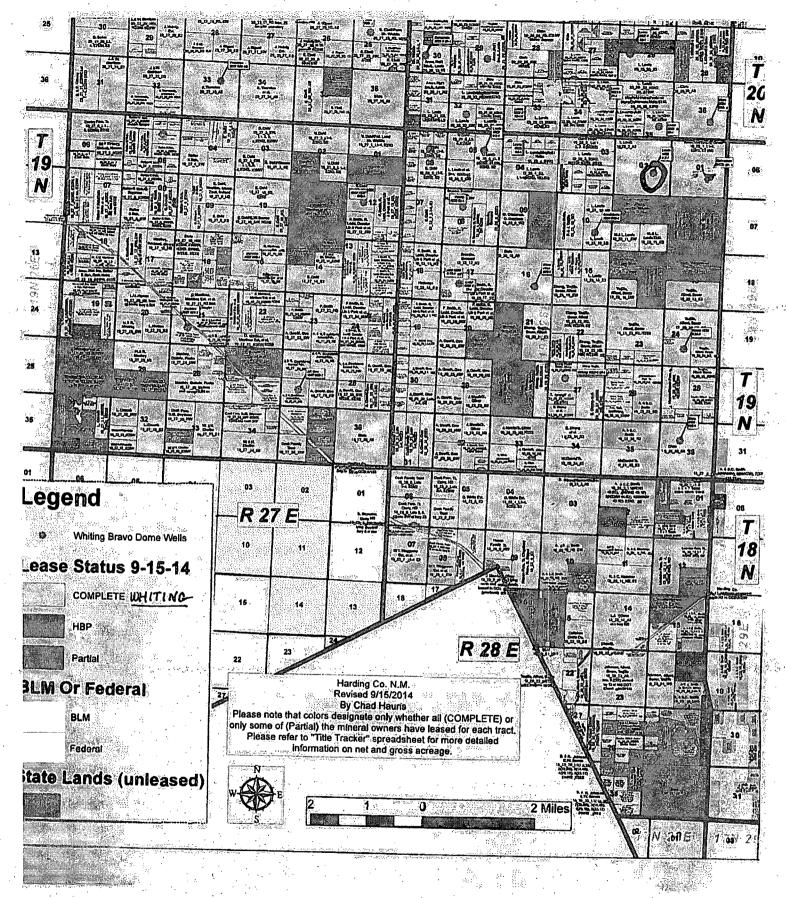

Sincerely, Kay Maddox

kay.maddox@whiting.com
