NATURE OF RELEASE

Type of Release: Produced water	Volume of Release: 230 bbls	Volume Recovered: 200 bbls
Source of Release: Water transfer pump seal and piping failure.	Date and Hour of Occurrence: 3/21/11 Time unknown	Date and Hour of Discovery: 3/21/11 Time 7:40 a.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	
By Whom? Tony Savoie	Date and Hour: 3/21/11 at 8:20 a.m.	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

A water transfer pump seal and bearings failed causing excessive vibration on the discharge piping of the pump. The power was shut off and valves were closed isolating the pump. The pump was replaced later the same day.

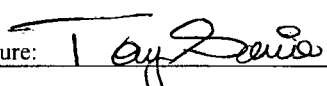

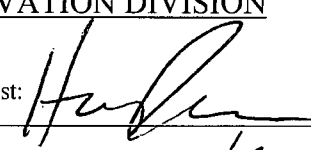

Describe Area Affected and Cleanup Action Taken.*

The entire area of the earthen containment was covered with produced water, approximately 4500 sq.ft. The free standing water was removed and the saturated area around the tanks and inside the containment was excavated and stockpiled on-site. Remediation activities were under way under an approved remediation plan. The caliche pad area measuring approximately 2000 sq.ft. was affected by the misting of the produced water being sprayed into the air.

Reference 2RP-717

The release was remediated as per NMOCD approval. Please reference the attached Remediation Summary & Site Closure Request for remediation details. Data June 2012

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
