Describe Cause of Problem and Remedial Action Taken.* Bosque Supervisor turned on pump to send water to Cotton Draw Unit 214 Poseidon tank. When the water started flowing, the hose separated from the hammer union off of the trunk line causing the spill.		
Describe Area Affected and Cleanup Action Taken.* The spill traveled approximately 8 feet to the North, 8 feet to the East, 7 feet to the West, and 22 feet to the South of the point of release. A vacuum truck was used to clean up as much water as possible, approximately 1 barrel. Alfredo's was called in to take soil samples.		

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
