Lara,

OCD concurs with BLM approval of the remediation proposal for the above referenced release. Please proceed on your schedule.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Lara,

This plan is approved as written. If when the excavation of Sp 3 is completed and the samples come back below 1000 then no liner will be required. You will need like approval from the NMOCD.
