NMOCD Tracking number: 2RP-743 * Date of release: 3/3/2011

Lara,

I did receive the hard copy of this proposal on 11/13/13. Thank you. The proposal for remediation of the above referenced release is approved. It is OCD's understanding that BLM approval has been obtained. Please proceed on your schedule.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Mike, of the CAPs you have, this is the only one you have as yet to approve. If you get a chance, can you look at this CAP as see if it is acceptable?
