Ms. Wilson,

Your proposal for remediation of the above referenced release is approved. OCD requests that, at a minimum, two composite samples be obtained from the excavation bottom and tested for BTEX and TPH, to insure these constituents were not entrained in the produced water. Please advise OCD prior to commencement of remedial activities. BLM approval of this remediation proposal may be required.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
