A failure of the end cap on a frac tank caused 30 bbls of oil and produced water to leak. The end cap was replaced.

Describe Area Affected and Cleanup Action Taken.*

The area affected was on location and in pasture land. Remediation was completed in accordance with the remediation plan approved by Mike Bratcher of NMOCD via email on 01/25/2013 and approved by Jennifer Van Curen of the BLM via email on 04/02/2013.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
