Reference: OXY USA \* Harroun 9-1 \* 30-015-34997 \* P-9-24s-29e \* Eddy County, New Mexico  
OCD Tracking Number: 2RP-1699 \* Date of release: 6/13/2013

Cliff,

Your proposal for remediation of the above referenced produced fluid release is approved. Please notify the OCD District 2 office prior to commencement of remedial activities. OCD records and email correspondence from BLM indicate that this site is situated on private owned surface. In the event the proposed excavation depths are not achieved, contact me prior to backfilling.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

**Subject:** OXY-Harroun 9-1 Battery-Remediation Plan

Mike,

This e-mail is to confirm our conversation the other day about the remediation plan for the above referenced site. I have attached the materials that we used in our discussion. As discussed, Oxy will excavate the leak area represented by sample points SP1-SP2 to a depth of 2.5 feet. The area represented by SP3 will be excavated to a depth of 1.5 feet or as practicable. The site will then be backfilled with the appropriate type of clean soil.

If you would please e-mail your concurrence with this remediation plan, it would be greatly appreciated.

Thanks, Cliff
