If yes, give the Division order number authorizing the project: _____
- V. Attach a map that identifies all wells and leases within two miles of any proposed injection well with a one-half mile radius circle drawn around each proposed injection well. This circle identifies the well's area of review.
- VI. Attach a tabulation of data on all wells of public record within the area of review which penetrate the proposed injection zone. Such data shall include a description of each well's type, construction, date drilled, location, depth, record of completion, and a schematic of any plugged well illustrating all plugging detail.
- VII. Attach data on the proposed operation, including:
1. Proposed average and maximum daily rate and volume of fluids to be injected;
 2. Whether the system is open or closed;
 3. Proposed average and maximum injection pressure;
 4. Sources and an appropriate analysis of injection fluid and compatibility with the receiving formation if other than reinjected produced water; and,
 5. If injection is for disposal purposes into a zone not productive of oil or gas at or within one mile of the proposed well, attach a chemical analysis of the disposal zone formation water (may be measured or inferred from existing literature, studies, nearby wells, etc.).
- VIII. Attach appropriate geologic data on the injection zone including appropriate lithologic detail, geologic name, thickness, and depth. Subject: Den SWD Well No. 1

Ms. Weaver:

can you provide the following information for the Den SWD Well No. 1

- A Delaware well located 2310 FNL and 990 FEL Sec. 25 T23SR27E, (which had a Delaware IP according to Midland Map) can you provide a plugging diagram for this well, and the IP interval? No well file with the OCD exists for this well.
- P & A well located 660 FNL and 660 FEL, Sec. 36 T23SR27E can you provide a plugging diagram. This well made a small amount of oil in the injection interval.
- Please provide return receipts for all parties.
- Please clarify the surface owner, and mineral owners.
- Can you provide a cross-section of the injection interval going through the location
- Can you provide the estimated top of Delaware/Base of Lamar for the Den SWD Well No. 1? I assume it will be for the well located 2310 FNL and 990 FEL Sec. 25 T23SR27E.

Thank You
