- Notify OCD District 2 office 48 hours prior to commencement of remedial activities.
- Notify OCD District 2 office 48 hours prior to obtaining any samples where the analyses will be submitted to OCD.

Mike,

This e-mail is to confirm our discussion on September 13, 2011 concerning the remediation plan for the release that occurred at the Oxy Cal-Mon #17. As agreed, Oxy will excavate 1 foot of the impacted soil in the spill area and down to 3 feet in the area of SP-2 which appears to be a pooling zone of the spill. A confirmation sample will be collected in the area of SP-2 which will be analyzed for TPH and BTEX per the NMOCD's request. The excavation will then be backfilled with clean soil. The depth to groundwater in this area is approximately 300 feet.

I have attached the site drawing and laboratory data and a few pictures that we reviewed during our discussion for your files. If you would please reply back via e-mail with your concurrence of this remediation plan, it would be greatly appreciated.

Oxy and I thank you for your assistance in handling this matter.

Thanks, Cliff
