RECEIVED
OCT 25 2013

Describe Cause of Problem and Remedial Action Taken.*

Failure to get a load from the tank caused an overflow and 59 bbls of produced water leaked onto the ground. 51 bbls of produced water were recovered via vacuum truck.

NMOCD ARTESIA

Describe Area Affected and Cleanup Action Taken.*

Failure to get a load from the tank caused an overflow and 59 bbls of produced water leaked onto the ground. 51 bbls of produced water were recovered via vacuum truck. Remediation was completed in accordance with the remediation plan verbally approved by Mike Bratcher of NMOCD and approved by Mike Burton of the BLM via email on 09/20/2013.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
