By Whom? Rudy Zuniga	Date and Hour 7/17/2015 @ 12:26 PM 7/17/2015 @ 12:30 PM	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse	

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

On July 17, 2015 at 10:39 AM Rudy Zuniga Devon Energy Production Foreman received a call from Jim Huerta Devon Energy Assistant Production Foreman notifying him that he received a call from Dwayne Concho Lease Operator that there was a leak by the Serene Sisters 25 Fed 4 Battery. Rudy drove to location and found the leak about 1/4 mile from the battery right next to the lease road into the pasture. From what Rudy observed the hole looked like the line had been shot causing the leak of 6 bbls of produced water.

Describe Area Affected and Cleanup Action Taken.\*

Rudy isolated the line so no more fluid could get out. None of the 6 bbls was recovered. This will have to be assessed for clean up

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
