NATURE OF RELEASE

Type of Release	Oil/Condensate	Volume of Release	41 bbls	Volume Recovered	0 bbls
Source of Release	Tank	Date and Hour of Occurrence	7/20/2015 time unknown	Date and Hour of Discovery	7/20/2015 at 10 am
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Mike Bratcher/Heather Patterson (NMOCD) and Jim Amos (BLM)		
By Whom?	Amy Ruth	Date and Hour	7/20/2015 at 12:26 pm		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	N/A		

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*
Corrosion caused a hole to form in tank. Tank was cleaned and repaired.

Describe Area Affected and Cleanup Action Taken.*
Leak affected 1950 square feet of caliche pad within the earthen berm. Leaked soaked through the earthen berm on the west side of the containment and affected a small area of caliche pad (area included above). The upper 3 to 10 inches of the most heavily impacted caliche was excavated by hand and removed to a disposal facility. The remaining impacted soils have been covered with plastic until delineation and remediation can be done.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Hello Everyone,

Small correction on the fluid lost from this tank since last email. Calculated at 41 bbls condensate/oil. It's on the form. Thanks!

From: Ruth, Amy C.

Subject: BOPCO Big Eddy Unit 156

BOPCO personnel located this leak from the oil tank on location. A total of 54 bbls oil leaked into the earthen berm and no fluids have been recovered. A c-141 will be submitted.

Thank you,

Amy (432-661-0571)
