If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*
A drain valve was left open on the water transfer pump and released fluids into zero perm containment.

Describe Area Affected and Cleanup Action Taken.*
Containment was drained and washed.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Importance: High

Here is the C-141. Can we combine Initial/Final or should I turn in an additional? Thanks so much?

-Amy

Release caught yesterday. A drain valve was left open and released about 100 bbls into our zero perm containment. All fluids were recovered. We are investigating and will submit a C-141. Thanks.

Patterson, Heather, EMNRD
