Proposed Location:

<u>Footages</u>	<u>Unit</u>	<u>Sec.</u>	<u>Twsp</u>	<u>Range</u>	<u>County</u>
807' FNL & 215' FWL	D	24	26N	5W	Rio Arriba

Proposed Unit:

<u>Description</u>	<u>Acres</u>	<u>Pool</u>	<u>Pool Code</u>
NW/4 of Section 24	160	Basin Mancos	97232

Reference is made to your application received on September 8, 2015.

You have requested to drill this well at an unorthodox gas well location described above in the referenced pool or formation. This location is governed by the Special Rules for the Basin Mancos Gas Pool, which provides for 320-acre units with wells to be located at least 660 feet from outer unit boundaries. This location is less than 660 feet from a unit outer boundary. Further, the proposed 160-acre spacing unit is permitted under Rule 3 (B), of the Special Pool Rules for the Basin Mancos Pool, because the remaining quarter sections are dedicated to the Tapacito Gallup (Associated) Pool.

Your application has been duly filed under the provisions of Division Rules 15.13 19.15.15.13 NMAC and 19.15.4.12.A (2) NMAC.

An unorthodox location is required in order to avoid cultural issues identified by the Bureau of Indian Affairs, and Jicarilla Apache Nation.

It is also understood that you have given due notice of this application to all operators or owners who are "affected persons," as defined in Rule 19.15.4.12 (A) 2 NMAC, in all adjoining units towards which the proposed location encroaches. However, the affected party had signed a waiver.

Pursuant to the authority conferred by Division Rule 19.15.15.13 (B) NMAC, the above-described unorthodox location is hereby approved.

This approval is subject to your being in compliance with all other applicable Division rules, including, but not limited to Division Rule 19.15.5.9 NMAC.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

Done at Santa Fe, New Mexico, on September 22, 2015.
