Attachments:

I received your voice mail message yesterday and have one short question of verification. You state in your application on page two that "Southwestern Energy Production Company has gained access to the mineral interests to the Cherry Canyon formation in the Delaware Mountain Group of Section 11 and Section 2 via farm out agreements with EOG (Lease Serial No. 3633-2), and Devon Energy (Lease Serial No. V-3361)." Does this mean that Southwestern Energy Production Company owns 100% of the working interests in both leases or that mineral interest ownership is identical in both leases?

Southwestern Energy owns 100% of the working interest in both Section 2 and Section 11.

Regards,
Alan
