RE: Administrative Approval of Unorthodox Location
Thompson C # 6S
1270' FNL, 2125' FEL
Section 10, T27N, R12W
San Juan County, New Mexico

Dear Mr. Stogner:

Energen Resources Corporation (Energen) hereby requests Administrative Approval for an Unorthodox Location of its Thompson C # 6S Fruitland Coal Well under the provisions of New Mexico Oil Conservation Division (NMOCD) order R-8768.

This well is located 1270' FNL & 2125' FEL of Section 10-T27N-R12W, San Juan County, New Mexico and is dedicated to a spacing unit consisting of the E/2 of Section 10, in the Basin Fruitland Coal gas pool.

This well is located closer than 660' from the western proration unit boundary by 150'. This is due to the location being within the boundaries of the Navajo Agricultural Products Industry (NAPI) farm and the location is situated so that it is outside the circular sprinkler system and will not interfere with the farm products. A standard location is not available for this reason.

A copy of this application is being sent to all affected owners by certified mail-return receipt requested with a request that they furnish your office in Santa Fe a Waiver of Objection within twenty (20) days of receipt of this application.

Attached is a well location plat showing dedicated acreage (C102), a plat showing the offsetting spacing units and Fruitland Coal Wells, and a topographic map.

Your favorable consideration of this request would be appreciated.

Sincerely,

David M. Poage
District Landman
