OTHER: Surface Commingle  OTHER: OTHER:  13. Describe proposed or completed operations. (Clearly state all pertinent details, of starting any proposed work). SEE RULE 1103. For Multiple Completions: or recompletion.  Thompson Engineering requests approval to surface commingle the gas production from Pools according to the attached schematic diagram. Surface commingling will allow both	and give pertinent dates, including estimated date Attach wellbore diagram of proposed completion  Gova  the Blanco Pictured Cliffs and Otero Chacra of these marginal zones to utilize a common
OTHER: Surface Commingle  OTHER: OTHER:  13. Describe proposed or completed operations. (Clearly state all pertinent details, of starting any proposed work). SEE RULE 1103. For Multiple Completions: or recompletion.  Thompson Engineering requests approval to surface commingle the gas production from Pools according to the attached schematic diagram. Surface commingling will allow bot compressor. The Chacra well will be equipped with an allocation meter. The volume allocation meter.	and give pertinent dates, including estimated date Attach wellbore diagram of proposed completion  Gova  the Blanco Pictured Cliffs and Otero Chacra of these marginal zones to utilize a common becated to the Chacra will be the volume measured
OTHER: Surface Commingle  OTHER: OTHER:  13. Describe proposed or completed operations. (Clearly state all pertinent details, of starting any proposed work). SEE RULE 1103. For Multiple Completions: or recompletion.  Thompson Engineering requests approval to surface commingle the gas production from Pools according to the attached schematic diagram. Surface commingling will allow bot compressor. The Chacra well will be equipped with an allocation meter. The volume alloat the allocation meter minus one-half of the compressor fuel gas. The volume allocated	and give pertinent dates, including estimated date Attach wellbore diagram of proposed completion  Govant  the Blanco Pictured Cliffs and Otero Chacra of these marginal zones to utilize a common becated to the Chacra will be the volume measured to the Pictured Cliffs will be the volume
OTHER: Surface Commingle  OTHER: OTHER:  13. Describe proposed or completed operations. (Clearly state all pertinent details, of starting any proposed work). SEE RULE 1103. For Multiple Completions: or recompletion.  Thompson Engineering requests approval to surface commingle the gas production from Pools according to the attached schematic diagram. Surface commingling will allow bot compressor. The Chacra well will be equipped with an allocation meter. The volume allocated measured at the CDP meter minus the volume measured at the Chacra allocation meter.	and give pertinent dates, including estimated date Attach wellbore diagram of proposed completion  Color  the Blanco Pictured Cliffs and Otero Chacra of these marginal zones to utilize a common cated to the Chacra will be the volume measured to the Pictured Cliffs will be the volume lus the compressor fuel gas volume.
OTHER: Surface Commingle  OTHER: OTHER:  13. Describe proposed or completed operations. (Clearly state all pertinent details, of starting any proposed work). SEE RULE 1103. For Multiple Completions: or recompletion.  Thompson Engineering requests approval to surface commingle the gas production from Pools according to the attached schematic diagram. Surface commingling will allow bot compressor. The Chacra well will be equipped with an allocation meter. The volume alloat the allocation meter minus one-half of the compressor fuel gas. The volume allocated	and give pertinent dates, including estimated date Attach wellbore diagram of proposed completion  Color  the Blanco Pictured Cliffs and Otero Chacra of these marginal zones to utilize a common cated to the Chacra will be the volume measured to the Pictured Cliffs will be the volume lus the compressor fuel gas volume.
OTHER: Surface Commingle  OTHER: OTHER:  13. Describe proposed or completed operations. (Clearly state all pertinent details, of starting any proposed work). SEE RULE 1103. For Multiple Completions: or recompletion.  Thompson Engineering requests approval to surface commingle the gas production from Pools according to the attached schematic diagram. Surface commingling will allow bot compressor. The Chacra well will be equipped with an allocation meter. The volume allocated measured at the CDP meter minus the volume measured at the Chacra allocation meter.	and give pertinent dates, including estimated date Attach wellbore diagram of proposed completion  Toxix  the Blanco Pictured Cliffs and Otero Chacra of these marginal zones to utilize a common scated to the Chacra will be the volume measured to the Pictured Cliffs will be the volume lus the compressor fuel gas volume.  s, Sr. Staff Landman.
OTHER: Surface Commingle  OTHER: OTHER:  13. Describe proposed or completed operations. (Clearly state all pertinent details, of starting any proposed work). SEE RULE 1103. For Multiple Completions: or recompletion.  Thompson Engineering requests approval to surface commingle the gas production from Pools according to the attached schematic diagram. Surface commingling will allow bot compressor. The Chacra well will be equipped with an allocation meter. The volume alloat the allocation meter minus one-half of the compressor fuel gas. The volume allocated measured at the CDP meter minus the volume measured at the Chacra allocation meter. All interests in both zones are common as certified by Ben Malone, Burlington Resource.	and give pertinent dates, including estimated date Attach wellbore diagram of proposed completion  Toxix  the Blanco Pictured Cliffs and Otero Chacra of these marginal zones to utilize a common scated to the Chacra will be the volume measured to the Pictured Cliffs will be the volume lus the compressor fuel gas volume.  s, Sr. Staff Landman.
OTHER: Surface Commingle  OTHER: OTHER:  13. Describe proposed or completed operations. (Clearly state all pertinent details, of starting any proposed work). SEE RULE 1103. For Multiple Completions: or recompletion.  Thompson Engineering requests approval to surface commingle the gas production from Pools according to the attached schematic diagram. Surface commingling will allow bot compressor. The Chacra well will be equipped with an allocation meter. The volume alloat the allocation meter minus one-half of the compressor fuel gas. The volume allocated measured at the CDP meter minus the volume measured at the Chacra allocation meter. All interests in both zones are common as certified by Ben Malone, Burlington Resource.	and give pertinent dates, including estimated date Attach wellbore diagram of proposed completion  Toxix  the Blanco Pictured Cliffs and Otero Chacra of these marginal zones to utilize a common scated to the Chacra will be the volume measured to the Pictured Cliffs will be the volume lus the compressor fuel gas volume.  s, Sr. Staff Landman.
OTHER: Surface Commingle  OTHER: OTHER:  13. Describe proposed or completed operations. (Clearly state all pertinent details, of starting any proposed work). SEE RULE 1103. For Multiple Completions: or recompletion.  Thompson Engineering requests approval to surface commingle the gas production from Pools according to the attached schematic diagram. Surface commingling will allow bot compressor. The Chacra well will be equipped with an allocation meter. The volume alloat the allocation meter minus one-half of the compressor fuel gas. The volume allocated measured at the CDP meter minus the volume measured at the Chacra allocation meter. All interests in both zones are common as certified by Ben Malone, Burlington Resource.	and give pertinent dates, including estimated date Attach wellbore diagram of proposed completion  Toxix  the Blanco Pictured Cliffs and Otero Chacra of these marginal zones to utilize a common scated to the Chacra will be the volume measured to the Pictured Cliffs will be the volume lus the compressor fuel gas volume.  s, Sr. Staff Landman.
OTHER: Surface Commingle  OTHER: OTHER:  13. Describe proposed or completed operations. (Clearly state all pertinent details, of starting any proposed work). SEE RULE 1103. For Multiple Completions: or recompletion.  Thompson Engineering requests approval to surface commingle the gas production from Pools according to the attached schematic diagram. Surface commingling will allow bot compressor. The Chacra well will be equipped with an allocation meter. The volume alloat the allocation meter minus one-half of the compressor fuel gas. The volume allocated measured at the CDP meter minus the volume measured at the Chacra allocation meter. All interests in both zones are common as certified by Ben Malone, Burlington Resource.	and give pertinent dates, including estimated date Attach wellbore diagram of proposed completion  Toxix  the Blanco Pictured Cliffs and Otero Chacra of these marginal zones to utilize a common scated to the Chacra will be the volume measured to the Pictured Cliffs will be the volume lus the compressor fuel gas volume.  s, Sr. Staff Landman.
OTHER: Surface Commingle  OTHER:  13. Describe proposed or completed operations. (Clearly state all pertinent details, of starting any proposed work). SEE RULE 1103. For Multiple Completions: or recompletion.  Thompson Engineering requests approval to surface commingle the gas production from Pools according to the attached schematic diagram. Surface commingling will allow bot compressor. The Chacra well will be equipped with an allocation meter. The volume alloat the allocation meter minus one-half of the compressor fuel gas. The volume allocated measured at the CDP meter minus the volume measured at the Chacra allocation meter pall interests in both zones are common as certified by Ben Malone, Burlington Resource.  The actual commercial value of the production will not be less than the sum of the value.	and give pertinent dates, including estimated date Attach wellbore diagram of proposed completion  Toxix  the Blanco Pictured Cliffs and Otero Chacra of these marginal zones to utilize a common scated to the Chacra will be the volume measured to the Pictured Cliffs will be the volume lus the compressor fuel gas volume.  s, Sr. Staff Landman.
OTHER: Surface Commingle  OTHER: OTHER:  13. Describe proposed or completed operations. (Clearly state all pertinent details, of starting any proposed work). SEE RULE 1103. For Multiple Completions: or recompletion.  Thompson Engineering requests approval to surface commingle the gas production from Pools according to the attached schematic diagram. Surface commingling will allow bot compressor. The Chacra well will be equipped with an allocation meter. The volume alloat the allocation meter minus one-half of the compressor fuel gas. The volume allocated measured at the CDP meter minus the volume measured at the Chacra allocation meter. All interests in both zones are common as certified by Ben Malone, Burlington Resource.	and give pertinent dates, including estimated date Attach wellbore diagram of proposed completion  Toxix  the Blanco Pictured Cliffs and Otero Chacra of these marginal zones to utilize a common scated to the Chacra will be the volume measured to the Pictured Cliffs will be the volume lus the compressor fuel gas volume.  s, Sr. Staff Landman.
OTHER: Surface Commingle  13. Describe proposed or completed operations. (Clearly state all pertinent details, of starting any proposed work). SEE RULE 1103. For Multiple Completions: or recompletion.  Thompson Engineering requests approval to surface commingle the gas production from Pools according to the attached schematic diagram. Surface commingling will allow bot compressor. The Chacra well will be equipped with an allocation meter. The volume alloat the allocation meter minus one-half of the compressor fuel gas. The volume allocated measured at the CDP meter minus the volume measured at the Chacra allocation meter pall interests in both zones are common as certified by Ben Malone, Burlington Resource. The actual commercial value of the production will not be less than the sum of the value.  I hereby certify that the information above is true and complete to the best of my knowled.	and give pertinent dates, including estimated date Attach wellbore diagram of proposed completion  the Blanco Pictured Cliffs and Otero Chacra of these marginal zones to utilize a common ocated to the Chacra will be the volume measured to the Pictured Cliffs will be the volume lus the compressor fuel gas volume.  s, Sr. Staff Landman.  s of the production from each well.
OTHER: Surface Commingle  13. Describe proposed or completed operations. (Clearly state all pertinent details, of starting any proposed work). SEE RULE 1103. For Multiple Completions: or recompletion.  Thompson Engineering requests approval to surface commingle the gas production from Pools according to the attached schematic diagram. Surface commingling will allow bot compressor. The Chacra well will be equipped with an allocation meter. The volume alloated measured at the CDP meter minus one-half of the compressor fuel gas. The volume allocated measured at the CDP meter minus the volume measured at the Chacra allocation meter pall interests in both zones are common as certified by Ben Malone, Burlington Resource. The actual commercial value of the production will not be less than the sum of the value grade tank has been/will be constructed or closed according to NMOCD guidelines , a general permit.	and give pertinent dates, including estimated date Attach wellbore diagram of proposed completion  the Blanco Pictured Cliffs and Otero Chacra of these marginal zones to utilize a common ocated to the Chacra will be the volume measured to the Pictured Cliffs will be the volume lus the compressor fuel gas volume.  s, Sr. Staff Landman.  s of the production from each well.
OTHER: Surface Commingle  13. Describe proposed or completed operations. (Clearly state all pertinent details, of starting any proposed work). SEE RULE 1103. For Multiple Completions: or recompletion.  Thompson Engineering requests approval to surface commingle the gas production from Pools according to the attached schematic diagram. Surface commingling will allow bot compressor. The Chacra well will be equipped with an allocation meter. The volume alloat the allocation meter minus one-half of the compressor fuel gas.
