Dear Mr. Hoover:

Your application to downhole commingling the Blanco Mesaverde and Basin Dakota formations in the referenced well has been reviewed. Gas allocation will be determined by using projected gas production and oil allocation will be determined by cumulative oil production. Approval to downhole commingling is hereby granted using a fixed percentage allocation as shown below.

| FORMATION | GAS ALLOCATION | OIL ALLOCATION |
|-----------|----------------|----------------|
| Mesaverde | 85% | 78% |
| Dakota | 15% | 22% |
