Administrative Order NSL-4251-B

Dear Mr. Lankford:

Reference is made to the following: (i) your application (*administrative application reference No. pMES0-606040757*) submitted to the New Mexico Oil Conservation Division ("Division") in Santa Fe, New Mexico on February 15, 2006; and (ii) the Division's records in Santa Fe, including the file in Division Administrative Order NSL-4251: all concerning El Paso Energy Raton, L.L.C.'s ("El Paso") request for exceptions to Division Rule 104.C (3) and the special provisions of Division Administrative Order NSL-4251, dated April 5, 1999, limiting the distance of wells to the outer boundary of the Vermejo Park Ranch lease in Colfax County, New Mexico [see Ordering Paragraph No. (2) on page 3 of said Administrative Order], for its proposed Vermejo Park Ranch "B" Well No. 203 (**API No. 30-007-20712**) to be drilled at an unorthodox (coal) gas well location 2082 feet from the South line and 1645 feet from the West line (Unit K) of Section 3, Township 29 North, Range 18 East, as projected into the (publicly unsurveyed) Maxwell Land Grant by private survey conducted by PennzEnergy Company, Colfax County, New Mexico. This unorthodox well location is necessary for topographic reasons.

The SW/4 of Section 3 is to be dedicated to this well in order to form a standard 160-acre gas spacing unit within the Undesignated Van Bremmer Canyon-Vermejo (Coal) Gas Pool (**97047**).

Your application has been duly filed under the provisions of Division Rules 104.F and 1210.A (2) [formerly Division Rule 1207.A (2), see Division Order No. R-12327-A, issued by the New Mexico Oil Conservation Commission in Case No. 13482 on September 15, 2005], and as further specified within the special provisions for the Vermejo Park Ranch lease in Division Administrative Order NSL-4251.

By the authority granted me under the provisions of Division Rule 104 F (2), the above described unorthodox (coal) gas well location is hereby approved.

El Paso Energy Raton, L.L.C.
