Gentlemen:

Devon Energy Production Company, L.P. (Devon), as Operator, intends to drill the referenced Delaware well to a depth of approximately 6,850'. Devon initially attempted to stake and permit this well at numerous orthodox locations. However, due to the proximity of the location to the Laguna Salado, the Bureau of Land Management (BLM) has required Devon to move the location. The closest drillable location as approved by the BLM is located 1090' FNL & 2510' FWL which is an unorthodox location as it is closer than 330' to the outer boundary of the designated spacing unit pursuant to the Statewide Pool Rules.

Inasmuch as this well will be producing from an unorthodox location from that permitted by the Statewide Pool Rules, Devon respectfully requests that the Commission administratively approve this application for an unorthodox location in accordance with Division Rule 104(F)(3). Devon's records reflect that, in addition to Devon, Chesapeake Exploration Limited Partnership, Pogo Producing Company, and Liberty Energy Corporation are the owners of the operating rights under NMNM-66425 covering all of said Section 22 and are the only parties affected by this application.

Attached you will find a land plat of the area affected by this application, a Lower Brushy Canyon F structure map, a State of New Mexico form C-102 and a Basin Surveys map which reflects the proximity of Laguna Salado to this location .

If there are any questions or if additional information is required feel free to call me at (405) 552-4633.

Yours very truly,

DEVON ENERGY PRODUCTION COMPANY, L.P.
