If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*  
From Electrical Storm, Lightning hit the 300 BBL Produced Water Tank causing the top and bottom to be separated from tank body.

Describe Area Affected and Cleanup Action Taken.\*  
The berm was breached and water & a trace of oil flowed off location down the ditch of the lease road. Rick Wilson called Fulfer Vacuum truck (Jal, NM) to vacuumed up any pooled water & oil. Also called EPI (Environmental Plus Inc.) of Eunice, NM to check for soil samples and clean up recommendation. Replaced 300 BBL tank with new tank.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
