NATURE OF RELEASE

Type of Release produced water	Volume of Release 21 bbls	Volume Recovered 20 bbls
Source of Release tank	Date and Hour of Occurrence 09/15/2015	Date and Hour of Discovery 09/15/2015
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher/Shelly Tucker	
By Whom? Christine Alderman	Date and Hour 09/16/2015 10:45am	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

The well produced more than normal recorded production for some reason, and the tank overfilled.

Describe Area Affected and Cleanup Action Taken.*

All fluids were contained in a LINED containment, and were recovered. Gravel will be cleaned and replaced.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

C-141 please?

The BLM approval/acceptance does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Shelly J Tucker

Yesterday morning (9/15/15) we had a release at the above named location. Approximately 21 bbls of produced water was released from the tank due to the well kicking and producing more than normal. All fluids were contained in a LINED containment.

A C-141 will follow ASAP.
