RECEIVED

Release Notification and Corrective Action

#AB1527452226
 NAB1001152522
 OPERATOR Initial Report Final Report
 Name of Company: Regency Field Services *298751* Contact: Johnnie Bradford
 Address: 600 N. Marienfeld Street Telephone No. (432) 250-5542 (cell) (817) 302-9812 (off)
 Facility Name: California C (Pecos River) Pipeline Facility Type: Pipeline
 Surface Owner: Mineral Owner: API No.

LOCATION OF RELEASE

Unit Letter	Section	Township	Range	Feet from the	North/South Line	Feet from the	East/West Line	County
	10	26	31					Eddy

Latitude 32.0616 N Longitude 103.8033 W

NATURE OF RELEASE

Type of Release: Gas Only *2802 Mcf*
 Volume of Release: 2.862 MMscf Vent
 Volume Recovered: None
 Source of Release: Pipeline Vent
 Date and Hour of Occurrence: 12/23/2015 20:25 - 12/24/2015 04:00
 Date and Hour of Discovery: 12/23/2015 20:25
 Was Immediate Notice Given? Yes No Not Required
 If YES, To Whom? Heather Patterson/Phone call left message.
 By Whom? Johnnie Bradford
 Date and Hour: 12/24/2015 08:03 MST
 Was a Watercourse Reached? Yes No
 If YES, Volume Impacting the Watercourse. N/A

If a Watercourse was Impacted, Describe Fully.*

Watercourse not impacted.

Describe Cause of Problem and Remedial Action Taken.*

The affected pipeline (California C [Pecos River]) was depressured to the atmosphere to facilitate the repair of a leak caused by corrosive factors. This pipeline transports sweet field gas to gas processing plants downstream.

Vent Coordinates: 32.0616N 103.80333W (BLM) - 32.06509N 103.54209W (Private)

Describe Area Affected and Cleanup Action Taken.*

Due to the fact that no liquids were present at the leak location, there was no soil clean up to be performed. The bell hole was back filled with uncontaminated spoils removed to uncover the leak initially. However, during venting at the second location, a mist of hydrocarbon was observed around the area. This light coating of material was remediated with an application of Micro-blaze on December 26, 2015.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
