COUNTY, NEW MEXICO (QLS-819905 & 820033)**

Dear Sirs,

Chevron Midcontinent, L.P. as Operator of the Lovington Paddock Unit (LPU) and the Lovington San Andres Unit (LSAU) is hereby proposing the surface commingling for the **Gas Production Only** from the LPU & LSAU in Lea County, New Mexico.

A single compressor will be installed that will commingle the gas downstream of the meters. A single sales meter will be installed that will eliminate the extra sales line. The allocation of production and revenue will be based on the volumes of gas production from all the wells in each Unit as measured through the two allocation meters.

As agreed upon by both NMOC and BLM, royalty interest owners have been notified by publication of notice in the Hobbs News Sun Newspaper, copy attached, issue date of August 07, 2015.

Please find attached, supporting documents for this proposed surface commingle, including list of all wells in the units, API numbers, schematics of facilities, and list of unit owners and working interest percentages.

State Land Office and BLM have both been notified with this same information.

Sincerely,

A handwritten signature in black ink, appearing to read "Denise Pinkerton", written over the printed name.

Hello Ed,

As requested by your telephone voice mail, I have attached the decision made by the New Mexico Oil Conservation Division. Chevron's regulatory group will place the AD in the paper as Notification for the numerous Royalty Owners. As for the Working Interest Owners, they have been notified by the attached letter. All will be included the Surface Commingling Package to be submitted for approval.

Thank you for your help in this matter.

Mr. McMillan,

Based on the information you provided in the email below, I just want to confirm once more the 2 options I have for Notifying the Royalty Owners which are as follows:

1. Notify each individual royalty owner 195+ for each of the Units
2. Run an ad in the Hobbs or Lovington paper

Will Option 2 be acceptable as notification for your office? As previously conveyed, I sent the attached letter to all the Working interest owners; so they have been notified. Based upon your advisory, we will submit the Surface Commingling package to the SLO, BLM and your office for administrative approval.

Thank you so much for your assistance in this matter.

Daniel:

Would Chevron be amenable to running a legal ad in the either the Hobbs or Lovington Paper for royalty interest owners, with the exception of NMSLO?

It would be approximately \$500 (guess) versus \$7000?

Call me with your thoughts

Subject: FW: Question on Surface Commingling for Lovington Paddock & Lovington San-Andres Units - Lea County, New Mexico

Mr. McMillan,

Per our telephone conversation regarding the surface commingling for **the Gas production only** for the Lovington Paddock Unit and Lovington San Andres Unit, below is an email response from Mr Martinez of the State Land Office. As I stated, there approximately 550 royalty owners for each of the Units.

I spoke with Mr Ed Fernandez of the Bureau of Land Management also and he advised that they would abide by the NMOCD decision as to the royalty owner notification.

Thanks for your help in this matter.

Are the individual wells being metered separately before commingling?

Re: Notice of Application for Surface Commingling for gas production only for
LOVINGTON PADDOCK UNIT AND LOVINGTON SAN ANDRES UNIT
Lea County, New Mexico

Dear Royalty Interest Owner:

You have been recognized as a royalty interest owner in the above mentioned Units.

Chevron Midcontinent, L.P., as operator of the Lovington Paddock Unit (LPU) and the Lovington San Andres Unit (LSAU) gives notice of intent to surface commingle gas production only, from the two units. Application has been filed with the New Mexico Oil Conservation Division in Santa Fe. The proposed surface commingle will entail the installation of two allocation meters at the existing battery locations for each Unit, a single compressor and installation of a single sales meter to eliminate the extra sales line. The purpose is to reduce the surface facility footprint and improve the operation of the mature Units. The batteries for both the LPU and LSAU are located in the NE/4 of Section 1, T-17-S, R-36-E. This surface commingle will in no way reduce royalty payments that are due you, as a royalty interest owner.

The Units are located approximately 0.9 miles West of Highway 18 and 5.5 miles southeast of the City of Lovington, in Lea County, New Mexico.

Any objections to this proposal must be sent to the following address within 20 days:
New Mexico Oil Conservation Division: 1220 South St. Francis Dr, Santa Fe, NM 87505.

Inquiries regarding this application should be directed to: Chevron U.S.A. Inc., Attn: Denise Pinkerton, 15 Smith Road, Midland, TX 79705.

Sincerely,

A handwritten signature in black ink, appearing to read "Denise Pinkerton".

Re: Notice of Application for Surface Commingling for gas production only for
LOVINGTON PADDOCK UNIT AND LOVINGTON SAN ANDRES UNIT
Lea County, New Mexico

Dear Royalty Interest Owner:

You have been recognized as a royalty interest owner in the above mentioned Units.

Chevron Midcontinent, L.P., as operator of the Lovington Paddock Unit (LPU) and the Lovington San Andres Unit (LSAU) gives notice of intent to surface commingle gas production only, from the two units. Application has been filed with the New Mexico Oil Conservation Division in Santa Fe. The proposed surface commingle will entail the installation of two allocation meters at the existing battery locations for each Unit, a single compressor and installation of a single sales meter to eliminate the extra sales line. The purpose is to reduce the surface facility footprint and improve the operation of the mature Units. The batteries for both the LPU and LSAU are located in the NE/4 of Section 1, T-17-S, R-36-E. This surface commingle will in no way reduce royalty payments that are due you, as a royalty interest owner.

The Units are located approximately 0.9 miles West of Highway 18 and 5.5 miles southeast of the City of Lovington, in Lea County, New Mexico.

Any objections to this proposal must be sent to the following address within 20 days:
New Mexico Oil Conservation Division: 1220 South St. Francis Dr, Santa Fe, NM 87505.

Inquiries regarding this application should be directed to: Chevron U.S.A. Inc., Attn: Denise Pinkerton, 15 Smith Road, Midland, TX 79705.

Sincerely,

A handwritten signature in dark ink, appearing to read "Denise Pinkerton", written over a horizontal line.
