If a Watercourse was Impacted, Describe Fully.*

DTW = 285' SPRL 10/04/13

Describe Cause of Problem and Remedial Action Taken.*

At the Mad Dog 15 -1, Lease Operator found a 20 barrel water leak on water transfer line .

Describe Area Affected and Cleanup Action Taken.*

Lease operator went to the Mad Dod 15 fed com # 1 and found the water transfure line had a hole and put 20 BBLS of produced water across an area of 3' X 150'. All water soaked in the ground. None was recovered. The water line was cut and re-welded and put back into production.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
