Type of Release Produced Water	Volume of Release 80	Volume Recovered 74
Source of Release Water Tank	Date and Hour of Occurrence 08/30/2010 7:15am	Date and Hour of Discovery Same
Was Immediate Notice Given? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Left message for Geoffrey	
By Whom? Natalie Gladden	Date and Hour 08/30/2010	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

WATER @ 60'

Describe Cause of Problem and Remedial Action Taken.*

8' open top water tank filled up and ran over. Victory Services is contracted to do scheduled hauling at this facility, they failed to do so; therefore the water tank overflowed and released the fluid inside the lined containment.

Describe Area Affected and Cleanup Action Taken.*

The fluid was released inside the lined containment. The fluid was removed along with the pea gravel covering the liner. The pea gravel was hauled to Sundance Services; liner was found to be intact and area was backfilled. No sampling required.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
