Describe Cause of Problem and Remedial Action Taken.*

Automation system failed which caused water tank to overflow. Vacuum truck was called out and recovered 30bbbs of fluid.

Describe Area Affected and Cleanup Action Taken.*

The battery is bermed and lined with 40 mil liner. All fluid was contained in battery. Hydro-tech extracted all contaminates from inside the lined battery and pea gravel was placed back inside containment area.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
