● **Comments:**

Mike,

I am resubmitting a C-141 for the spill that was reported earlier this week at Merit Energy's TB 132 flow line. The correct well's flow line is the Turner B 127. The closest well site is the Turner B 41, which is a P/A'd well. I'm sorry for the confusion; please accept this form as the revised one.

Thanks,

Jim Holton
