Mike,

Thanks for letting us know. I'll circle back with you next week.

Bernie

Bernie,

I sent this to Santa Fe a couple of weeks ago and asked for a review the ground water data, but have not heard anything back yet. Check with me next Wednesday or Thursday, if I still haven't heard anything on it, I will do something different. I am not sure your proposal to remove just 5' will be sufficient, given the elevated chloride levels being left in place, but I would like to get with the hydrologist before making that call.

Thanks,

Mike Bratcher

Mike,

I wanted to check with you on the status of the Pardue Farms Workplan. This is a site for Chevron. I have attached a copy of the workplan for your convenience. Could you please let us know if you agree with our approach. Thank you,

Bernie
