Describe Cause of Problem and Remedial Action Taken.*

The fiber glass body of the gun barrel tank had a crack where the suction line for the injection pump came into the tank. The gun barrel was bypassed to stop the release and a vacuum truck was contacted. Repairs are currently in progress.

Describe Area Affected and Cleanup Action Taken.*

The spill was approximately 66bbls produced water into lined containment and all 66bbls were recovered by vacuum truck. The liner was checked for holes and no holes were found and no further action is necessary.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
