NATURE OF RELEASE

Type of Release: Produced Water	Volume of Release: 85 bbls	Volume Recovered: 85 bbls
Source of Release: Water tank	Date and Hour of Occurrence: 02/27/2014	Date and Hour of Discovery: 02/27/2014 0700
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Burton-BLM Geoffrey Leking-NM OCD	
By Whom? Theresa McCracken	Date and Hour 03/06/2014 0930	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*:

Describe Cause of Problem and Remedial Action Taken.*: When I arrived at the Philips Lea tank battery I noticed that the water tank had ran over. I then tried to start the transfer pump, and it had no power. I called the electrician to check my power. When my electrician got there he found a fuse burned up. We replaced the fuse, and got the transfer pump back on. We picked up 85bbls of produced water that was inside the lined fire wall

Describe Area Affected and Cleanup Action Taken.* : (20x20ft 2.5 ft tall fire wall) This tank battery did not alarm anyone, because it does not have alarm system on it. To be determined--contaminated soil to be removed and replaced or remediated on site. Ground was frozen at the time of the release, so penetration was limited.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
