Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*  
**Flowline was punctured and then repaired.**

Describe Area Affected and Cleanup Action Taken.\*

**Produced fluids collected off location in a low spot approximately 65' to the SW. Soil had noticeable TPH but no vegetation was affected or inhibited. Tentatively, Saber OGV plans to collect TPH contaminated soil and remediate it with the current Yates Federal Battery Remediation.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Here is our initial C-141 for this well.

Please let me know if you need anything else.
