**NATURE OF RELEASE**

Type of Release	oil, possible salt water	Volume of Release	Unknown	Volume Recovered	None
Source of Release	gas vent, wellhead, Engine	Date and Hour of Occurrence		Date and Hour of Discovery	
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?			
By Whom?		Date and Hour			
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*  
Oil mist from gas vent, gas venting due to high line pressure. Various small flowline leaks, minor stuffing box leaks and engine oil.

Describe Area Affected and Cleanup Action Taken.\* All leaks appear minor and only effecting surface. No samples have been take or tested at this time. May plug well and do final clean up of entire location. Will advise. If continue to produce, effected areas will be cleaned up according to OCD rules.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mr. Bracken,

Our field inspector sent these pictures of the State 32 #1 well operated by Hanley Petroleum. There appears to be a current spill, as well as some historic impact, and an active gas leak at this location. At this time, OCD requests a Form C-141 be submitted for this site. Please report any known volumes that may have been released, but if volumes are unknown, indicate that on the form. Remediation of the site will be required according to OCD rules and guidelines. OCD records indicate the site is situated on State surface, so NMSLO is being copied on this email.

If you have any questions or concerns, please contact me.

Thank you,

Heather Patterson

Attached are some pics of State 32 #001. API 30-015-29378. It appears they had a release and the red valve in pic #005 is open and blowing gas.

Thanks,
