Mr. Geoffry Leking

Environmental Engineer

NMOCD- Hobbs

1625 French Drive

Hobbs, New Mexico 88240

Dear Mr. Leking:

In response to your letter of April 14,2010, regarding releases on or near the Penroc State GC Well #2 C-7-22S-35E, API # 30-025-38617-00-00 and Penroc State GC Lease, State Lease No. L-6377,O-7-22S-35E tank battery, here is a plan of action to be taken by Penroc Oil Corporation:

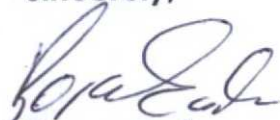

1] Flowline discharge from State GC #2 well was clamped and shut off.

2] The releases inside diked area, and outside at the GC battery could happened prior to Penroc Oil Corporation assuming ownership of the State GC lease. However, they are now the responsibility of Penroc Oil Corporation.

Mr. Merchant is currently overseas checking on his mother, who is quite ill. Upon his return, mid- May,2010, the proper paperwork and remedial actions will be completed and properly reported to the NMOCD.

Hopefully this meets with satisfaction. Should there be any questions, feel free to call.

Sincerely,

Royce Eades

Operations Manager
