By Whom? Joe Hernandez Was a Watercourse Reached? Yes No If a Watercourse was Impacted, Describe Fully.* Describe Cause of Problem and Remedial Action Taken.* Drove down lease road to check wells and found leak on three inch polyline. Line had a pin hole. Describe Area Affected and Cleanup Action Taken. The contaminated soil was removed from the site and properly disposed of at a NMOCD approved facility. The excavation was backfilled with clean, imported soil to ground surface and contoured to the surrounding area. Since the initial remediation activities, the site has been plugged and reclamation activities completed. I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
