**RE: Renewal of Permit # HBP-024
Annual Temporary Permission to Discharge Hydrostatic Test Water**

Dear Mr. Jones:

BOPCO, L.P. is requesting to renew our *Annual Temporary Permission* to discharge hydrostatic test waters from new crude oil and/or natural gas pipelines. If needed, discharges will occur within BOPCO, L.P. rights-of-way and will be discharged in a manner so as to control soil erosion and to prevent sediment discharge from the site. Methods to be utilized to control sediment will include filter bags, detention basins, right-of-way dust suppression, aid the compaction trench backfill, or placing the water in the trench and allowing it to soak in or evaporate.

The annual temporary permission authorizes BOPCO, L.P. to discharge hydrostatic test waters in Southeast New Mexico (Eddy County and Lea County). Our request for an annual temporary permission to discharge will cover hydrostatic tests that are conducted during an approved one-year period with the following applicable conditions:

- a) The water volume does not exceed 25,000 gallons per hydrostatic test;
- b) Only water from a public/municipal water supply or other OCD approved source will be used for each test;
- c) BOPCO, L.P. will provide oral or written notification to the OCD at least 72 hours prior to each hydrostatic discharge event;
- d) The discharged test water will not enter any lake, perennial stream, river or their respective tributaries that may be seasonal;
- e) No discharge shall occur:
 - a. where ground water is less than 10 feet below ground surface;
 - b. within 200 feet of a watercourse, lakebed, sinkhole or playa lake;

- c. within an existing wellhead protection area;
- d. within 500 feet of a wetland; or
- e. within 500 feet from the nearest permanent residence, school, hospital, institution or church;
- f) Best management practices will be implemented to contain the discharge onsite, to ensure that it does not impact adjacent property, and to control erosion;
- g) The discharge will not cause any fresh water supplies to be degraded or to exceed standards as set forth in Subsections A, B, and C of the 20.6.2.3103 NMAC (the New Mexico Water Quality Control Commission Regulations);
- h) The landowner(s) of each proposed discharge and/or collection/retention or alternative discharge location will be properly notified of the activities prior to each proposed hydrostatic test event; and
- i) BOPCO, L.P. will submit an annual report, summarizing all tests of new pipe with less than 25,000 gallons discharge per hydrostatic test event to the OCD within 45 days after the temporary permission expiration date. The report shall contain the following information:
 - a. the location of hydrostatic test (Sec/TS/Range or GPS coordinates);
 - b. the date of each test;
 - c. the volume of each discharge; and
 - d. the source and quality of test water (lab analysis, if necessary).

I have enclosed check #805964 for \$250.00 to cover the filing fee (\$100.00) and temporary permission fee (\$150.00.)

Your time and attention to this request is appreciated. If further information is required, please do not hesitate to call me at 817.390.8823 or to email me at wbiehl@basspet.com.

Regards,

J. William Biehl
