If a Watercourse was Impacted, Describe Fully.*

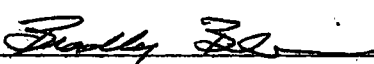

Describe Cause of Problem and Remedial Action Taken.*

EH&S was notified of a release at the PLU Big Sinks 7-25-31 Battery. Release was caused by a hole that developed in the steel riser of the SWD line on the north side of the battery containment. Vacuum truck was called to the location and recovered 20 barrels of produced water

Describe Area Affected and Cleanup Action Taken.*

Release affected an area on the north side of the battery containment, a vacuum truck was utilized to recover 20 barrels of produced water from the ground surface.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
