Good afternoon Daniel. I just left a VM on your office line. We'd like to add the Torreon Wash 36 State 1 well to Exhibit A of our existing ACOI. I've attached the current ACOI and an updated Exhibit A. I wasn't sure when the MIT would be required. Can you please check the dates for Test 1 & Test 2 in our updated Exhibit A.

We discussed this well back in August. At that time, the NM SLO didn't have a program in place to shut-in a well. They do now—I believe this was passed last month.

Can this be added to our ACOI? I need to have the NM SLO "Shut-in Oil Well Notification Form" submitted/in Santa Fe by the end of the month, so time is of the essence. It seems adding this to our current ACOI is the best course of action. They also state on the notification form that we can file a C-103 requesting shut-in status to satisfy their needs.

Please let me know your thoughts. Thanks for your assistance with this matter.

Regards,  
Butch
