In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

The well log information refutes the Chevron-Texaco Map trends for Section 34, T20S-R25E. The well log information displays water depth to be deeper to the south than portrayed by the Chevron-Texaco Map, making this release a site ranking ZERO.
