Crystal, Yes, it was a typo in the Latitude being 33.xxxxx, not 32.xxxxx also the same with Kristen (the 'y' and 'u' next to each letter, and auto correct didn't change the miss spelling on my part), but we all do typo's (Aretesia).

As far as the Patsy BPI State #7, we had generally used Range 30 and up (numerically) and or, the last five digits of the API number beginning with '2' (30-005-2xxxx), the well is likely to be District 1, In most cases with Range 29 and down being District 2 (but again, not all) the last five digits of the API number for Chaves wells in District 2, begin with '6' (30-005-6xxxx).

We had received notification from Mr. Oberding/Santa Fe that he is responding to All environmental issues from D1, though he also stated he would be out from December 19 – December 28, and to plan accordingly. For any District 1 notifications and or C-141/Workplans, should they be forwarded to you and Mike also?

Thank you.

Hello Bob,

Sorry for more than one email about the same two Initial C-141's but I am having a hard time correctly locating your coordinates. You wrote a different legal (PLSS) then what the coordinates end up in. I figured out that you had a typo it seems in the Latitude numbers, you wrote 32.xxxx when it was supposed to be 33.xxxx. Also some of your section information is incorrect. Also your API for Patsy BPI State #7 is correct but you submitted your C-141 to District 1 for this and this location is in District 2. The only reason we ended up with it in District 2 is because we are currently covering for the Environmental team of District 1. I made some written suggestions on the C-141 and I attached a scanned copy with my suggestions on it. Please correct your C-141's and return them to us.

Thank you,

Crystal Weaver

Hey Bob,

We got your initial C-141's for this one and Abby BLF State #1. Mike Bratcher and I are covering for District II for a while. Just wanted to let you know.
Also FYI Kristen's last name (District I) is Lynch not Lunch.

Merry Christmas! ☺

Thanks,
