Consolidating production from two leases to one battery will extend the economic life for these wells and lessen surface disturbance. Commingling will not reduce the value of production.

The Puckett Battery has diverse ownership between the wells in section 12 and the wells in section 13. Please see attached letter. We are asking for well test with wells with common ownership. These wells are producing from the Fren; Glorieta-Yeso. I have attached a diagram of the battery facility, and a map showing all well and facility locations, admin checklist, and notice to all interest owners.

Please contact me at 432-685-4332 should you have any questions.

Sincerely,

Kanicia Castillo
