| Was a Watercourse Reached?<br><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No  | If YES, Volume Impacting the Watercourse.    |   |

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

A steel production line within the battery developed a hole causing the release. Closed valves to isolate the leak, vacuum truck(s) and roustabout crews were called.

Describe Area Affected and Cleanup Action Taken.\*

An approximate area of 40' X 10' within the lined/bermed battery. All released produced water was recovered using a vacuum truck (100%). Roustabout crew repaired the line. Depth to Ground Water: 50-99' (approximately 75', per ChevronTexaco Trend Map), Wellhead Protection Area: No, Distance to Surface Water Body: >1000', SITE RANKING IS 10. Based on the battery being lined/bermed and all released produced water was recovered, EOG Y Resources requests closure.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Subject:** Form C-141, Initial/Final Report (Sears BRS #2H)  
**Attachments:** Form C-141, Initial Final Report (Sears BSR #2H).pdf

Mike/Crystal,

I had completed the C-141 right after the release occurred, but it never made it from a Word document to being emailed to your office.

Contact me if there are any questions.

Thank you,

**Robert C. "Bob" Asher**
